The NCDB has a number of books and resource kits which we would like to make available to members of our district churches. Materials on church planting, church health, leadership, leading turnaround, organizational diagnosis, and overcoming resistance to change are available.

Simply make a request of the ones you are interested in and we will get them to you. Only the items marked “loaner” need be returned. Just go to the contacts page on our website and send a message with your name, address, phone#, church, and items requested.
